

Nappy Catalogue

The following is a list of nappies, wraps and accessories which we have found to work well or have been recommended by other users. It is not intended to be comprehensive and you may well find other brands which you prefer to these through brochures and websites. Prices vary between suppliers and are included to give a rough indication of cost for comparison – check up to date prices before ordering. Likewise the suppliers listed are not the only companies selling these nappies and you may find better deals elsewhere. Pictures and details of the products can be found in the brochures from the nappy companies or on their websites – see end for supplier contact details.
